

LET'S PROTECT OUR

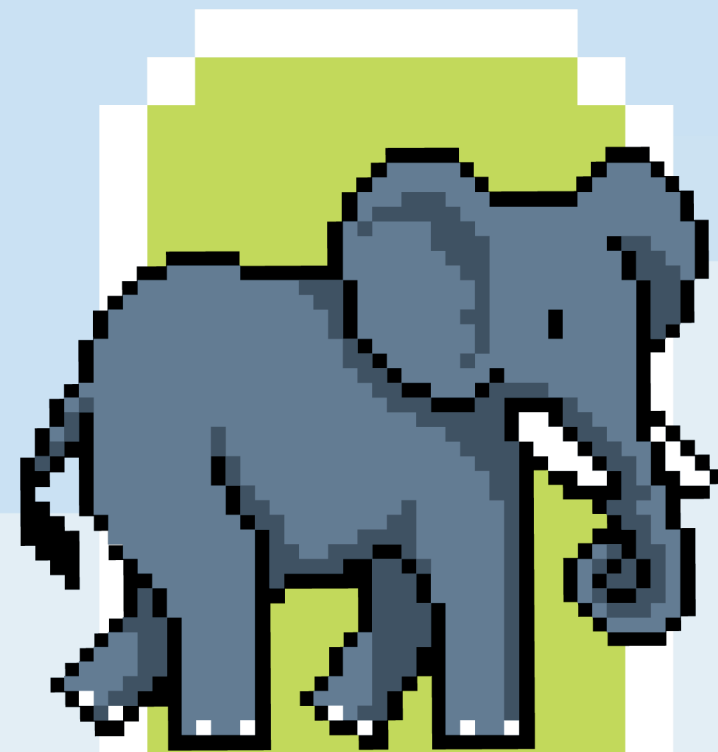

PLANET

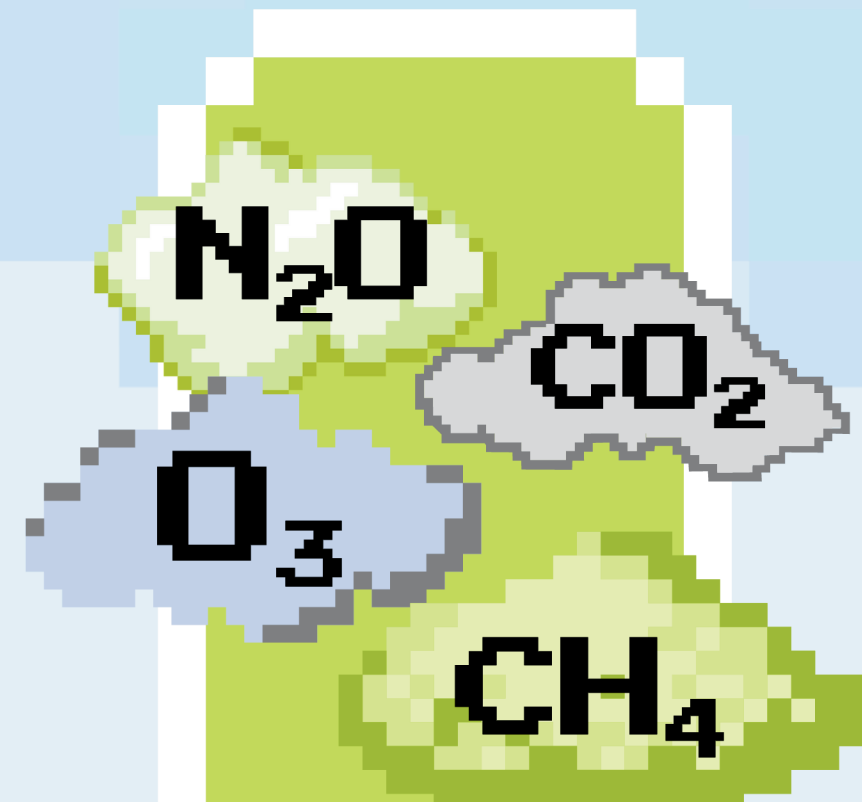

Most farmland
(80%) is
utilized to
produce animal
foods¹

Wild animals are
losing their homes
as forests are cleared
to make way for
agriculture.²

Farmed animals
drink a lot of water.
A cow can drink as
much as an elephant
each day!³

A large amount of
Greenhouse Gas
Emissions come from
animal food
production!⁴

TIME TO EAT

MORE PLANTS!
